

# COMPANY PROFILE

Kalmar MailPro AB is a Swedish manufacturer of intelligent inserting machines and inserting systems, all based on the latest, state-of-the-art, technology. Kalmar MailPro's products are fully developed and manufactured in Sweden in accordance with valid European quality standards and regulations.

Kalmar MailPro AB has skilled and well-trained staff at its modern, well-equipped manufacturing facility in Kalmar. Kalmar MailPro AB is a turnkey and OEM supplier. The company's services range from complying with a customer's specific requirements to training a customer's employees at our own facilities or on-site. Kalmar MailPro's customers are in environments dealing with high volume mailing opera-

tions such as Mail Houses, Banks, Insurance Companies and Information Centres. Kalmar MailPro's products are delivered worldwide via a network of distributors. Kalmar MailPro AB was founded in 1994 as a subsidiary of Kalmar Teknik AB. The two companies are familyowned.

## DEVELOPMENT AND MANUFACTURING

Kalmar MailPro is constantly updating and improving its range of products and applications. Our skilled team of engineers also design tailored systems for our customers. A powerful 3D CAD system is the main tool in our development process.

A majority of the mechanical parts are manufactured at our own workshop, which is equipped with modern CNC machine tools and machining centres. Our products are built and tested by

fully trained engineers with years of experience. Our engineers also carry out servicing, installations and training at our customer's sites.

**All development and manufacturing activities at Kalmar MailPro AB are in accordance with the ISO 9001:2000 Quality Standard.**

# PRODUCTS AND CUSTOMERS

Kalmar MailPro's machines are among the most flexible Mail Inserters on the market. Therefore the company has pushed developments towards accuracy and versatility, to benefit up time, flexibility, price and the overall performance of the machines.

The machines can insert anything from a stamp to thick books and CDs. Almost anything can be processed through the machine system, with or without intelligent support.

Having installed machines at over 150 production sites around the world, Kalmar MailPro has experience of many different applications, as well as a variety of environments.

Each installation improves our services. Kalmar MailPro's customers range from international

corporations to small, one-man, companies. A customer can be a bank distributing everything from annual reports, to statements, bonds and advertising material. Another customer can be a "multi-customer Mailhouse" requiring significant flexibility in setting up and using various intelligent reading techniques (OMR, BCR, OCR etc.) and different channel systems. All our customers achieve the same ability to connect their machines into their own network, and the internet.

All our customers receive the highest levels of attention from their local Kalmar MailPro distributor as well as from the Kalmar MailPro factory.
